

**Broadwindsor Group Parish
Community Land Trust**

Update, April/May 2018

We hosted a well attended Community Consultation Event in Drimpton Village Hall on 28 March 2018. Lots of positive and supportive comments were made. Feedback from the community has been included in our discussions as we continue to refine designs for the site with our architects (Trewin Design) and Yarlington Housing Group, with input from our consultant engineer (Barnaby Associates), and advisors Wessex CLTP. We have responded to some of the concerns and queries raised in our latest edition of the BGP CLT News and on our website.

On behalf of the BGP CLT Board, Sheila Hawkins and Steve Chubb recently attended a training event hosted by Wessex CLTP. Sessions covered legal and financial issues and obligations. There was also an interesting presentation from the National CLT Network representative, which included information on the Data Protection Act that comes into effect later in May 2018.

Meanwhile, legal negotiations continue between the CLT and our partners Yarlington Housing Association, and the landowners.

Our latest Newsletter and more information is available on the BGP CLT website at www.broadwindsorgroupparishclt.org .
