

August 2022

All is progressing well, and to programme.

The first site inspection by the Considerate Constructors Scheme Monitor scored an excellent 41 points (out of possible 45).

All substructures are now complete. On superstructures, first lift (first floor) is complete on 90% of plots, and scaffolding is now going up for work on first floor and roofing levels.

Front elevations of Portland stonework are now visible along Netherhay Lane.
