

Broadwindsor GP CLT – update

Work on the Netherhay Lane site is progressing well and on time. Elevations are now rising from the foundation blocks, brickwork and facings of Portland Stone are now visible. Large attenuation tanks to manage the surface water run off have been installed

BGP CLT and the Broadwindsor Grouped Parish Council have put forward the name Northcombe Lea for this site to Dorset Council.

Our community project, *Homemaking*, has received grant funding from Dorset Council's Community and Culture Fund. When waste timber from the site becomes available, community volunteers will creatively up-cycle the material to make bird and bat boxes etc, some of which we hope can be housed on the development site in due course. This project, which also includes photography, music, song and art work, is being coordinated on behalf of BGP CLT by Andrew Pastor.

Unfortunately, thefts of materials from site have recently taken place. 24/7 CCTV on site is now in place and CG Fry have also installed more secure storage areas. Any additional information anyone can provide about these thefts would be gratefully received by CG Fry's Project Manager at the site.

The 2022 AGM took place in Drimpton Village Hall on Monday evening, 20 June. Sheila Hawkins and Jacqui Sewell were re-elected to the Board for another 3 year term. Francesca Hurrell and Rowland Hibbard, who had previously been co-opted on to the Board, were elected by Members, as was Stefan Nikolov (Broadwindsor). Steve Chubb, Brian Hesketh and Ken Banks are the remaining Board members.
