

Broadwindsor Grouped Parish Community Land Trust

July 2022 update

- Work is on schedule and on track to complete by April 2023

- Sewerage system:

CG Fry and Abri are now proposing a gravity-fed sewer solution to join the main Drimpton sewerage system

- CG Fry at own expense has undertaken CCTV surveys of Drimpton's main sewer run from Oxhayes through Marksmead. Results of surveys have been sent on to SW Water to undertake the necessary remedial action

BrGrouped PC has supported this action

- CLT has received a donation of £100 from Drimpton Village Voices towards cost of a metalwork bench to be made by Robert Hedditch. This will be located in a communal area on the site.

- CG Fry has assisted CLT by moving a supply of unwanted pallets off site. These will be recycled into bird and bat boxes made by local volunteers and led by Robin Moses.
